Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Miller et al. in view of Rivalto.

Miller et al. shows all of the limitations of the claims except for specifying that the identification is linked to a customer profile with discounts (price), past purchase data (prior depositing of currency or amounts paid) and a push button device.

Miller et al. shows an identification system card, which uses fingerprints as a form of univocal identification (via micro processor, memory of fingerprints inherent). Column 2, lines 71-75 shows that the intent of using the identification system with automatic vending. Figures 1 and 2 show the processing the geometric forms of the fingerprint.

Rivalto teaches, figure 1, an automated drive-up vending facility. There is a touch screen 18 (push button device) including a "quit-no purchase button" in order to facilitate communication. The identification system is linked to a customer profile (this database inherently has memory) with discounts (price) and past purchase data (prior depositing of currency or amounts paid) in order to provide better customer service and provide marketing opportunities.

Based on the teaching of Rivalto, it would have been obvious to one of ordinary skill in the art, at the time the invention was made, to modify the automatic vending systems of Miller et al. to incorporate the identification links of Rivalto in order to provide better customer service and provide marketing opportunities and the touch screen of Rivalto in order to facilitate communication.

Response to Arguments

Applicant's arguments filed 11/16/05 have been fully considered but they are not persuasive.

Applicant asserts that the invention completely eliminates the necessity of having to use any type of payment medium. This is not relevant because there are no claim limitations requiring this and it is not totally clear what falls in or out of the scope of "any type of payment medium".

Applicant asserts that there is no motivation to combine the references. The examiner does not concur. Miller explicitly suggests the combination with automatic vending and Rivalto is an automated vending facility.

Applicant asserts that the combination couldn't teach "the use of only a fingerprint". This is not relevant. It is not in the claim language.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
